

55th Meeting of The Civil GPS Service Interface Committee

**at the
Institute of Navigation GNSS 2015 Conference
Tampa Convention Center
14-15 September 2015**

GPS Civil Users Need A Means For:

Providers should disseminate system information (system status, health and modernization plans).

Need worldwide user input/feedback (feedback on adequacy of signals for user needs, new applications).

Global industry participation is key.

An interference/outage reporting mechanism is needed (process for interference detection and mitigation).

Users must have an advocate (a means by which system users can be represented in the system planning and operation).

CGSIC Charter

Civil GPS Service Interface Committee was chartered in 1986 to be that forum.

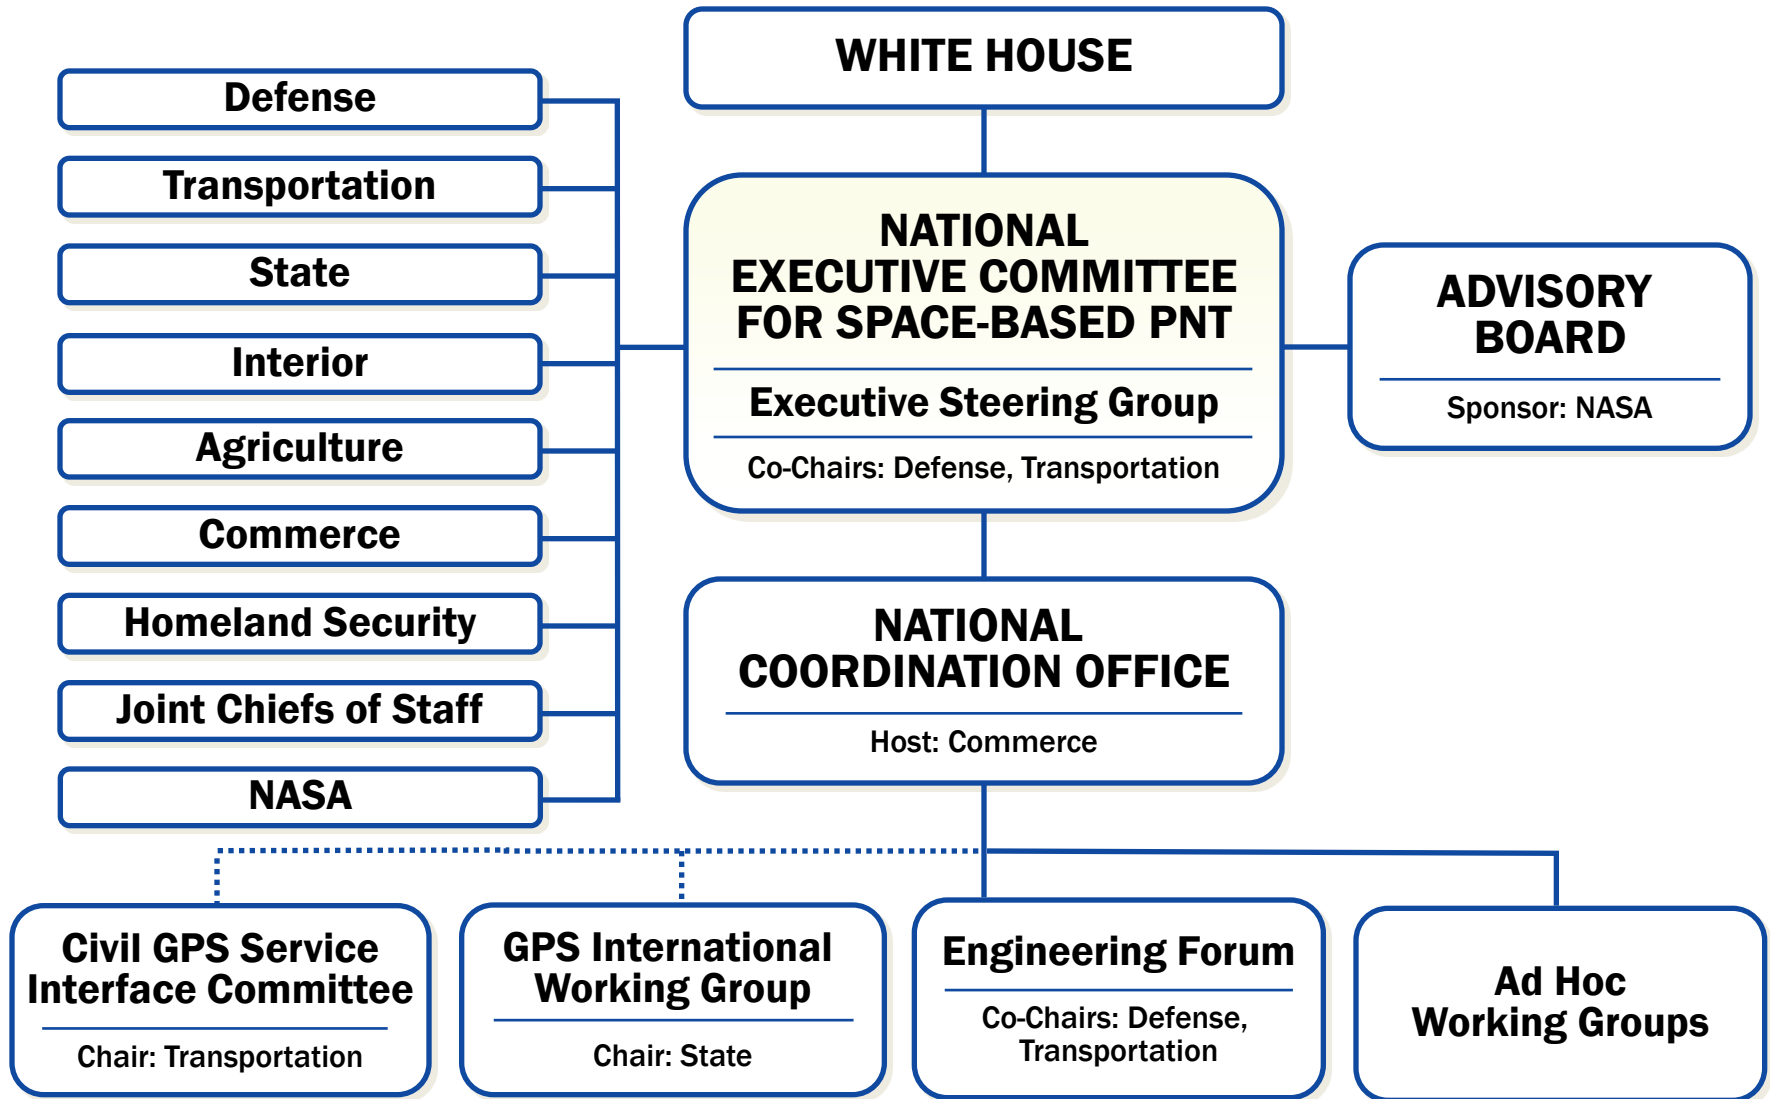

Recognized worldwide forum for effective interaction between all civil GPS users and the U.S. GPS authorities.

Established and chartered to identify civil GPS user needs (e.g. positioning, navigation, and timing).

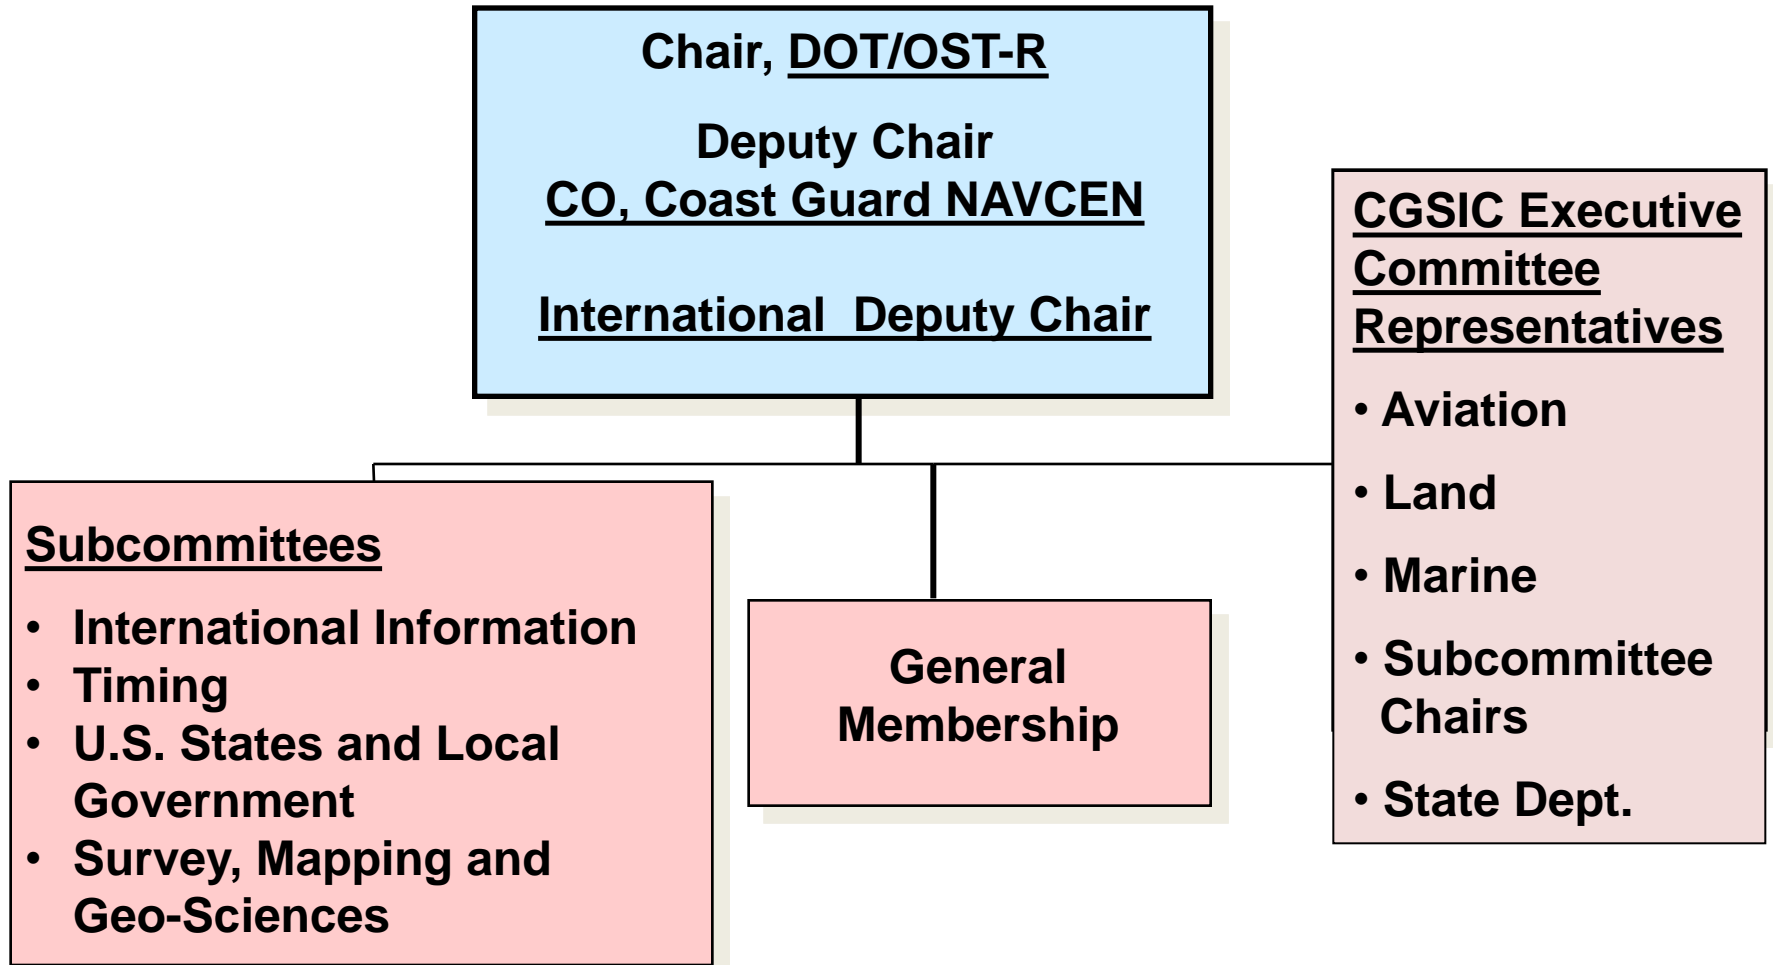

Exchange information concerning GPS with the worldwide civil user community.

Reports activities to the DOT Office of the Assistant Secretary for Research and Technology.

U.S. Space-Based PNT Organization Structure

Civil GPS Service Interface Committee (CGSIC)

CGSIC is the World-Wide Forum Between Civil GPS Users and U.S. Government Service Providers
